

## Tax Subject T1 - Introduction to Taxation (OR)

---

There was a time when there was no income tax. The taxing process graduated slowly to what it is now. At one point there was a question of the constitutionality of taxation. Taxes are a necessity. How else can a nation survive and prosper? This topic is your introduction to taxation. In it you will find the very basic tax principles that are necessary to prepare tax returns. Upon reading the material for topic 1, you will encounter almost every topic covered in the basic certification course including the mentioning of publications used in this course. Due to ethics and tax updates requirements that must be met, everything in the reading material matters (everything is game, fine print, help to taxpayers, disclosures and the various tax worksheets).
